

Build Responsibly

Additional Information

Additional information on methods to protect structures is available through the Lawton Library system and through the web at [FEMA](#).

Publications available from FEMA are:

- › [Building a Safe Room Inside Your House](#): Provides detailed guidance and plans on shelter design for high wind storms.
- › [Homeowner's Guide to Retrofitting \(FEMA 312\)](#): Contains an overview of six methods to protect a structure during a flood event.
- › [Protecting Building Utilities from Flood Damage](#): Contains information on protecting building utilities from flooding.

[City of Lawton Floodplain Regulations](#) provide additional information.
